

King Plastic Corporation

King Plastic Corporation has been developing and manufacturing quality polymer sheets, slabs and massive shapes since 1968.

The King heritage is a tireless commitment to innovation, quality and service.

Our comprehensive line of branded and commodity products is manufactured at our state-of-the-art headquarters in North Port, Florida, and distributed worldwide.

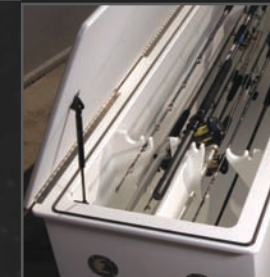

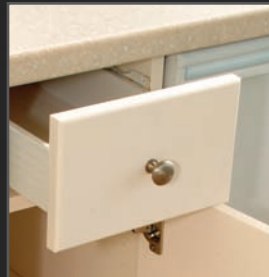

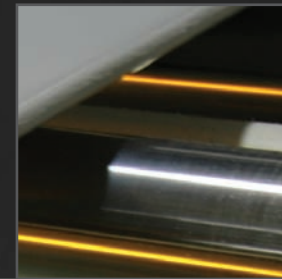

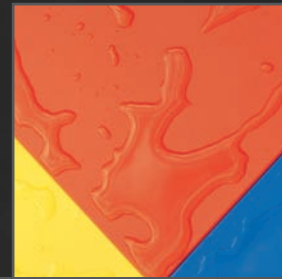

King Plastic Corporation at a Glance:

- 29 products in Sheets, Slabs and Massive Shapes
- Industry-leading standards and tolerances
- Sheets to more than 120' x 8'
- Slabs to more than 30" thick
- Massive Shapes to more than 5,000 lbs.
- 150,000 square feet of manufacturing capacity
- World-class sales, service and distribution
- Call today for a custom quote

Why King Plastic?

Heritage

King Plastic Corporation began as a small, family enterprise. Now with more than 120 employees manufacturing polymer products around the clock for worldwide distribution, we hardly qualify as a "small" business. However, the King family maintains independent ownership and control. The same values that made the company so successful in the past still prevail today.

Innovation

King Plastic Corporation pioneered the first marine-grade polymer sheet, King StarBoard®, which remains the dominant brand in the marine industry today. Since then, we have produced dozens of breakthrough products for a wide variety of industries, from food service to neutron shielding to signage to giant slabs weighing more than 6,000 pounds. King Plastic continues to raise the bar with new products, new production techniques and new standards of excellence.

Quality

The King brand means quality to those who know plastics. This quality is achieved and maintained through rigorous development testing, premium materials, tight tolerances, proprietary processes, thorough inspection, careful shipping, and cultivating the best workforce.

Service

King Plastic's commitment to quality doesn't end with products. Our in-house sales team excels at product knowledge and developing long-term customer relationships. Our worldwide network of plastics distributors includes the best in the industry. Together, we make sure manufacturers and fabricators receive the right material, at the right price, right on time.

Commodity Product Inventory

While King Plastic Corporation's branded products enjoy a loyal following, we also produce and warehouse a wide variety of non-branded "commodity" products.

Polyethylene Sheet

1/16" through 4" thick & 48" x 96" standard
Custom sizes available

High-Density Polyethylene
Natural, black and custom colors

Low-Density Polyethylene
Natural and custom colors

Linear Low-Density Polyethylene
Custom-run product

Engineered Sheet

Custom sizes available

King Hy-Pact® UH
1/2" through 3" thick
UHMW Polymer

King Hy-Pact® VH
1/8" through 3/4" thick
VHMW Polymer

King PipeGrade® High-Density Polyethylene
Special black HDPE per
PE 3608/3408 & 4710 specifications

ABS
Natural, black, white, flame-retardant,
1/8" through 4" thick
FDA-approved and custom colors

Polypropylene Sheet

1/8" through 1" thick & 48" x 96" standard
Custom sizes available

Homopolymer
Natural, black and custom colors

Copolymer
Custom-run product
Proprietary Products

Food Service Industry

FDA- and NSF-certified family of products

King CuttingBoard®
Professional cutting board sheet

King CuttingBoard® XL
Lightweight and economical version

King CuttingColors®
Color coded to prevent cross-contamination
*Blue (seafood), Yellow (poultry), Tan (cooked meat),
Red (red meat) and Green (vegetables)*

Recreational Products

Brightly colored and environmentally stabilized.
Perfect for park and playground applications

King ColorCore®
Engravable, multi-colored sheet

King ColorBoard®
Solid colored sheets

Neutron Radiation Control

Boron-filled polyethylene sheets and slabs

King Plasti-Shield®
Neutron Radiation Control
Boron filled polyethylene sheets and slabs
Available in virgin (natural); 1% (yellow) or 2% (red)
boron by weight per Mil-P 23536A; or Industrial Grade
5% (purple)

Marine Products

From the marine polymer pioneer

King StarBoard®
The Ultimate Marine Building Material™

King StarBoard® XL
Lightweight, cellular marine-grade
polymer sheet

King StarBoard® AS
Slip-resistant top surface

King StarLite® XL
Cellular utility sheet

King Starboard® ST
Stiffer, glossier and more scratch-resistant polymer sheet

King Starboard® ST XL
Lightweight, cellular version of our durable polymer

King E-Board®
One-step rigging sheet

Architectural Products

King PlastiBal®
Lavatory and institutional partitions

King ColorCore®
Engravable sheet for signage,
lockers, partitions and more

King ColorBoard®
Solid sheet for signage, lockers,
partitions and more

King-Size Blocks

Perfect for prototype, modeling
and short production runs
2 1/2" through 12"+ thick &
24" x 48" standard
Specializing in custom sizes and colors

Polypropylene
Natural and custom colors

King PipeGrade® High-Density Polyethylene
Special black HDPE per
PE 3608/3408 & 4710 specifications

High-Density Polyethylene
Natural and custom colors

Low-Density Polyethylene
Natural and custom colors
