

September 5, 2017

Subject: Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment and as amended by RoHS 3 Directive (EU) 2015/863 ("RoHS Directive").

Re: Polyethylene, Polypropylene, ABS, and Polystyrene

Dear Customer,

Regarding the following King Plastic Corporation's products and the RoHS reporting requirements.

Polyethylene – King StarBoard® Family, King DuraStyle®, King MediGrade®, King ColorBoard®, King ColorCore®, King CuttingBoard®, King FlameShield, King MicroShield®, King Plasti-Bal®, King Plasti-Shield®, King HyPact®, King KPC HDPE, and King KPC LDPE

This product meets the requirements of the RoHS Directive.

Polypropylene – King KPC Polypropylene

This product meets the requirements of the RoHS Directive.

ABS – King KPC ABS

This product meets the requirements of the RoHS Directive.

Polystyrene – King High-Impact Polystyrene

This product meets the requirements of the RoHS Directive.

The information provided in this letter is derived from industry standards and practices, and manufacturer's data and is, to the best of my belief and knowledge, accurate as of the date written.
