Our Innovation. Your Imagination.®

Heritage

King Plastic Corporation began as a small, family enterprise. Founded in 1968, King Plastic Corporation is a leading manufacturer of quality polymer sheets, slabs and massive shapes—including several products pioneered by the company. Its polymers are sold worldwide through a network of top plastics distributors to customers who fabricate products for the Marine Industry (King StarBoard® Brand), Signage, Food Service, Healthcare, Architectural, Industrial and other Markets. The company headquarters is a 150,000 square-foot manufacturing facility in North Port, Florida. The King family still maintains independent ownership and control. The same values that made the company so successful in the past still prevail today.

Innovation

King Plastic Corporation pioneered the first marine-grade polymer sheet, King StarBoard®, which remains the dominant brand in the marine industry today. Since then, King has produced dozens of breakthrough products for a wide variety of industries, from food service to signage to giant slabs weighing more than 6,000 pounds. King continues to raise the bar with new products, new production techniques and new standards of excellence.

Quality

The King brand is synonymous with quality to those who know plastics. Our quality is achieved and maintained through rigorous development testing, premium materials, tight tolerances, proprietary processes (K-Stran®), thorough inspection, careful shipping, and training and hiring the best workforce in the industry.

Service

King's commitment to quality doesn't end with products. The company's in-house sales team excels at product knowledge and developing long-term customer relationships. Its worldwide network of plastics distributors includes the best in the industry. Together, they make sure manufacturers and fabricators receive the right material, at the right price, right on time.

Commodity Product Inventory

While King Plastic Corporation's branded products enjoy a loyal following, the company also produces a wide variety of now-branded "commodity" products, King Performance Commodities. Thanks to expanded production and warehouse facilities, the company now has 200% more products in inventory ready for immediate shipping.

King Plastic Corporation

Our Innovation. Your Imagination.®

King Plastic Corporation has been developing and manufacturing quality polymer sheets, slabs and massive shapes for virtually any application since 1968. Our comprehensive line of branded and commodity products is manufactured at our headquarters in North Port, Florida, and distributed worldwide.
